

February 14th 2022 Trevor Wicks

Time is of the Essence Re: **Apprehension and Confinement of:**

Eileen Gillian Wicks Date of Birth. 1948 Jan 03 #19 639 Arbutus Street Qualicum Beach BC

Defining Authorities: Oceanside Health Center (OHC) Oceanside detachment RCMP (ORCMP)
Nanaimo Regional General Hospital (NRGH)

Further to a telephone conversation with Joanna Salken (NRGH) on Friday February 11th; the following points were discussed.

1. Information obtained and transposed by one or more third parties, not in direct contact with Eileen or I, has been used to affect the apprehension and confinement of Eileen.
2. This information obtained during casual conversations, with frequent interruptions, was based on incomplete, false, and distorted, assumptions.
3. These dubious assumptions were reported and manipulated by (OHC) without any direct input from Eileen or I.
4. This resulted in inappropriate actions taken by (OHC), (ORCMP) and (NRGH) on January 12.
5. These actions could have been a reaction to one or more of the following: mistakenly trying to protect Eileen from me after almost 60 years together, retribution, jealousy, religious or ethical grounds.
6. These actions have had a direct negative effect on dozens of people, and indirectly more than two thousand individuals expressing emotional responses such as: fear, anger, confusion, frustration etc.
7. A simple solution is obvious; discharge Eileen to my care at home, and engage in a self-administered home care support plan, including companionship for Eileen and respite for myself.
8. **Actions taken by Authorities involving Eileen Wicks, could be considered ELDER ABUSE**

Signed Eileen Wicks Dated
